HARD KNOCKS FOR SUFFRAGE PLANS DEALT BY CITIZENS

North Washington Men Are Opposed to Return of Old System.

Decided opposition to the suffrage novement in the District developed at the meeting of the North Washington Citizens' Association, and caused the tabling of a resolution presented by W. D. MacKenzie, favoring the project. The resolution declared that "Whereas the people of the District are taxed at least one-half of the District revenues, and taxation without representation is tyranny; and Congress in its last session failed to enact measures of local legislation which are necessary for the welfare of the people of the District of Columbia, which were strongly recommended by the people, it is resolved that we, the North Washington Clitzens' Association, favor the right of suffrage."

The resolution provoked a lively discussion. John Baker asked Mr. Mac-Kenzie whether he had been a resident of the District when it had the right of suffrage. On being answered in the negative, Mr. Baker described what he negative, Mr. Baker described what he stated were conditions here at that time, and said that the people of the District had thrown away the right of suffrage.

Fears Bosses' Power.

He asserted that the government of Andrew Gleeson and Perry Carson would be the result of a return to suffrage in a community in which a large majority of the residents held their citizenship in outside States, and the remainder of the population was made up of colored people and foreigners who uld be "controlled by the bosses." Mr. MacKenzie, in presenting the reso-lution, had called attention to the report on taxation made by the George committee of the House, and both Mr. Baker and Elva C. Palmer, president of the association, in speaking against the resolution, declared that although the report showed a bad state of affairs as regards taxation, this would scarcely be improved by instituting suffrage, but required a change in the system of as-sessing taxes and fixing valuations.

"Des Moines, Galveston, Los Angeles, and other Western cities have a form of government which has elaminated graft." he said, and then pointed out that it was "this sort of efficient city government which is needed in the District of Columbia."

In answer to the statement of John Baker that the people of the District in 1874 had spurned suffrage as worthless, Mr. MacKenzie said that the people of the District never were consulted in the matter, and that the only cure for the exils of democracy was more democracy.

Resolutions disapproving the erection of a theater for moving pictures on First street, between Rhode Island avenue and U street, were adopted. Attention was called to the fact that a similar project on First street, between S and T streets, recently was defeated through the action of the association.
